FUND STRATEGY

- Provide a stable income investment opportunity by acquiring a portfolio of diversified short term private Asset-Backed Securities, with supporting exposures to short term Mortgages and public High Yield and Corporate/Government securities
- Focus on short duration debt instruments to reduce interest rate sensitivity and achieve the Fund's liquidity objectives
- Execute origination strategies within robust Portfolio Management Guidelines, Investment Controls and Restrictions to provide prudent diversification while delivering superior risk-adjusted returns
- Apply stringent investment review platform employing fundamental bottom-up analysis to select only companies with lower risk of default and to maximize protection through the capital structure
